

The 3DEXPERIENCE CATIA V6 Teamcenter Integration (TCI) is a comprehensive solution for all kinds of integration scenarios. The solution integrates the 3DEXPERIENCE virtual product structure to the Teamcenter product structure. This solution is also available for the PDM systems Aras Innovator (ACI) and CIM Database (CCI).

Your challenges

Use of CATIA V6 in combination with Teamcenter as global PLM backbone

- ⊗ Replacement of CATIA V5 by CATIA V6**
without replacing an existing PLM backbone by 3DEXPERIENCE platform.
- ⊗ Only Design Process in 3DEXPERIENCE**
Existing global Teamcenter PLM backbone that needs to be extended towards 3DEXPERIENCE / CATIA V6 only as an authoring tool for design work.
- ⊗ Keep general PLM Processes in Teamcenter**
All existing up- and downstream processes need to stay in Teamcenter.
- ⊗ Collaboration with 3DEXPERIENCE Customer**
Transfer of CATIA V5 design work to a customer 3DEXPERIENCE platform.

Our solution

PLM-2-PLM Integration that allows to keep existing global PLM backbone and use 3DEXPERIENCE from Dassault Systèmes only for design processes.

- ✓ Ready-to-use and configurable**
TCI is an industry proven and ready-to-use 3DEXPERIENCE / CATIA V6 to Teamcenter integration product.
- ✓ Express Implementation Package**
TCI can be implemented based on existing templates and many configuration capabilities within a few weeks.
- ✓ Advanced Customization Capabilities**
Complex customer requirements can be reflected by using the huge customization capabilities.

Highlights

- ✓ **All viable Integration Scenarios**
 TCI serves coexistence, cross-system-border collaboration and migration scenarios.
- ✓ **Comprehensive BOM Synchronization**
 Bi-directional exchange of 3DEXPERIENCE virtual product structure and Teamcenter product structure.
- ✓ **Support of all reasonable PLM Clients**
 Seamlessly embedded into the Teamcenter Rich Client, Active Workspace and 3DEXPERIENCE Rich Client UI.
- ✓ **TCI Web Client simplifies Use-Cases**
 Specific web client for administration, execution and visualization of Teamcenter and 3DEXPERIENCE product structures.

Benefits

- ✓ **Continuously developed Product**
 Allows always access to all latest available PLM Software versions.
- ✓ **Installation and Configuration Package**
 Easy Configuration and Installation, either by the customer or with the help of T-Systems experts. Allows the introduction of the Integration within a few weeks.
- ✓ **Support by TCI Product Experts**
 The customer can always get support by the team of experienced TCI product experts. Standard Product email Support for all kinds of requests mostly within less than 48 hours.
